Tour the heart of ancient Jerusalem. Pass through the underground tunnels.

Go down to the hidden spring. Walk in illuminated darkness through the water of Hezekiah's Tunnel.

Enchanted Jerusalem –A magical, pleasant evening experience combining touring by dark with artistic lighting and shows

The tour begins with a night-time overlook of the city. An impressive 3D movie depicts the city's glorious history.

The night-time guided tour of the City of David site, accompanied by stunning lighting displays.

The tour continues to the Royal Quarter where a new and artistic light show is screened against the backdrop of the antiquities, telling the story of the City of David through sounds and movements.

Ascend to Zion Tour – New Discoveries from the Second Temple Period

A new tour in the City of David.

Thanks to recent excavations, one can now walk its streets and be amazed by its splendor.

Join us on a fascinating tour of sites that were just uncovered. From there we will climb and exit onto the grandiose road.

Come join in the excitement as Ancient Jerusalem comes to life, before our very own eyes.

Segway – The Vehicle of the Future on the Paths of the Past

The City of David invites you to an incredible ride on a sophisticated two-wheeled vehicle, equipped with advanced sensors that are able to interpret your body's position.

Segway tours are the final word when it comes to urban adventures. After a short practice session, all you need to do is lean forward slightly, and you will be on your way....

Our trips offer our guests a nature experience in the heart of a sprawling city.

The Temple Mount Sifting Project at the Emek Tzurim National Park

A unique experience that includes active participation in an authentic archaeological excavation, where you will sift rubble from the Temple Mount and unearth ancient artifacts from the past.

From the Temple Mount and unearth ancient artifacts from the past. You will come to the Emek Tzurim National Park at the foot of the Hebrew University at Mount Scopus.

There, you will hear a short archaeological workshop and be given about two hours to experience sifting the rubble.
